EDUCATION

Vivekanand Education Society's Institute Of Technology

B.E in Electronics and Telecommunication

CGPA: 7.8

Mumbai, Maharashtra

Graduation, May 2024

PROFILE SUMMARY

Enthusiastic Full Stack Developer proficient in the MERN stack, with expertise in front-end development using CSS, Bootstrap, and Tailwind CSS. Skilled in building scalable web applications and committed to delivering innovative, user-focused solutions.

INTERNSHIP EXPERIENCE

Frontend Developer Intern | Technokrate Technologies | Nagpur

22-Oct to 22-Jan 2025

- Collaborated on real-time market projects, delivering interactive user interfaces using **ReactJS**, **Tailwind CSS**, and **Recoil State** for state management.
- Integrated RESTful APIs for dynamic data fetching and ensured efficient application performance.
- Built reusable components to streamline development and maintain a consistent design language.

PROJECTS

Email Template Builder

Tools: MongoDB, Express.js, React, Node.js

A full-stack web application that allows users to create, save, and manage customizable email templates with CRUD functionality.

Responsibilities:

- Implemented user authentication with secure token-based access for secure access to the application.
- Developed RESTful APIs for CRUD operations, enabling users to create, save, view, edit, and delete email templates.
- Responsive and intuitive frontend design for template management.

Global Data Visualization Dashboard

Tools: React, D3.js, Three.js, Node.js, MongoDB, Express.js

An interactive data visualization platform showcasing global trends and insights using a dynamic globe and bubble charts.

Responsibilities:

- Built an interactive globe with data points and dynamic filters for country, region, and PESTLE analysis.
- Created charts to display metrics like intensity and relevance, incorporating smooth transitions and dynamic updates.
- Designed and implemented a responsive modal to provide detailed insights and information on selected data elements.

E-commerce Website

Tools: MongoDB, Express.js, React, Node.js

A comprehensive eCommerce website built using the MERN stack, demonstrating the ability to create scalable and interactive web applications.

Responsibilities:

- Developed secure authentication mechanisms and admin functionalities for managing products and user access.
- Added dynamic shopping cart functionality and implemented pagination and sorting for seamless navigation.

ACADEMIC ACHIEVEMENTS

- Completed a Full-Stack Development course from The Odin Project.
- Earned a Web Development certification from Tutedude with a focus on ReactJS.

SKILLS

Programming: C++, JavaScript, HTML/CSS, Node.js, React.js, Express.js

Tools: MongoDB, Git, Linux, Bootstrap, Postman, npm, MySQL
